FOSTER'S PARK

C. J. PEURRUNG SPENDS WEEK-END THERE AND IS ENTHUSIASTIC IN PRAISE

Mr. and Mrs. C. J. Peurrung and Mr. and Mrs. K. Dougall, of Arden Avenue, left Thursday night for Foster's National Park, about six miles from Ventura, on the road to Ojai. They returned Sunday night full of enthusiasm about the camp which they shared with quite a large company of auto tourists. It is very accessible as the run to Ventura can be made in three hours and fifteen minutes more will take a car to Foster's as fine auto roads lead right to the grove composed of all kinds of trees natural to this latitude. The river runs through the park and water is piped to all parts of the camping sites. It is also convenient because, being so near Ventura, one is not compelled to transport a lot of supplies, but can buy there at need. The fish were not biting particularly well the days they were there, but they nevertheless caught enough to have several meals of trout and also got some salt water perch from the ocean at Ventura. Mr. Peurrung comes from Cincinnati and he says the grove at Foster's reminds him more of eastern woods than anything he has thus far seen in California, which is, perhaps, another reason for his enthusiasm about the place.

WILL ATTEND IMPERIAL COUNCIL OF SHRINERS

J. J. Burke and John Hobbs of Glendale, the former a member of the band and the latter of the chanters of Al Malaikah Temple, Los Angeles Shriners, will go to Indianapolis on the special train of Shriners starting from Los Angeles tomorrow, 10 a. m. They will attend the Imperial Council of Shriners, to be held in Indiana's capital city. On the way back, Mr. Hobbs will visit relatives in Galesburg, Ill., and Mr. Burke in Bushnell, and both will stop a day in Lincoln, Nebraska. At Bushnell, Mr. Burke will be joined for the return home by E. J. Jackson, who recently took his wife's body back to Bardolph, seven miles from Bushnell, for burial.

DR. S. B. WARNER COMING

From the Rocky Ford Enterprise of May 30th, the following item is taken, which should be of interest to residents of this city:

"The Monday Evening Club held their annual banquet at the high school on Tuesday evening. Miss Wasley and her domestic science class served the repast which was most attractive in its appointments beside being extremely palatable. J. H. Price acted as toastmaster and was most happy in introducing the different speakers. Between toasts the assembly sang old time songs applicable to the preceding talk. A feature of the evening was the presentation of a handsome loving cup to Dr. S. B. Warner, who expects to leave next week for Glendale, Calif., to make his home. Judge E. C. Glenn in a few well chosen words, made the presentation speech in which he told of the high regard every member of the club had for him and his family and of the high esteem in which they are held in church, club and community. Although taken by surprise Dr. Warner expressed his thanks and assured the members that he would miss them and the club sessions more than they could conceive. After a social hour they all sang "Auld Lang Syne" and repaired to their homes wishing the Warner family health, happiness and prosperity in their new home."

WINDING UP RED CROSS AFFAIRS

Mrs. H. E. Bartlett says there are a few tables, some partitions, two cupboards, two water coolers and some smaller articles yet on hand which should be sold at once. They can be seen and examined any day, between 9 and 5, at headquarters.

VISIT FROM HIS SON

EZRA PARKER IS WELCOMING LIEUT. WALTER H. PARKER FROM SAN FRANCISCO

Lieut. Walter H. Parker, with his wife, is coming to Glendale today from San Francisco where his home is, to visit his father, Ezra Parker, of this city. The lieutenant, who is an architect by profession, is on his way to Camp Kearny to be officially let out of the army. His brother Howard is in Paris and has a nice job in the Commissary Department, and is enjoying the French capital very much. After a year of strenuous service this is a most agreeable change for him.

WANTS NEW SCHOOL

EZRA PARKER URGES ATTENDANCE ON SCHOOL BOARD MEETING TONIGHT

"The Glendale Evening News ought to leave no stone unturned to make the people of Glendale thoroughly acquainted with the needs of the graded schools, particularly the pressing needs of the Broadway School," declared Ezra Parker yesterday on meeting a representative of the paper. "That meeting at the Intermediate School Thursday evening, to instruct the school trustees as to whether they shall move and repair the present old building, or dispose of it and build new," he continued, "is one of the most important summonses to the voters of the municipality that has been issued in a long time."

"My opinion?" he countered in response to an inquiry as to his own stand on the problem to be solved. "Why, I think by all means the board should sell the Eighth Street school site, sell the present building, which is old and will have to be replaced in the near future, take the $3,000 damages received from the city, and call for a bond issue for the balance needed and erect a suitable modern school building on that site. It is my opinion that Broadway will eventually be improved its entire length and opened up to Griffith Park, which will make it one of the most important thoroughfares of the city and one on which we should have a representative school building. The Broadway structure is a ramshackle affair which will not last long, and to move and patch it up will be poor economy, as I see things. I seldom go out evenings, but I shall make a great effort to attend that meeting, and I think every other public-spirited voter should be there to discuss the matter."

W. F. Wood, who arrived in time to participate in the discussion, indorsed Mr. Parker's stand as a sound one, both from the standpoint of economy and the future welfare of that portion of the city.

DEATH OF INFANT

Death has again invaded the home of Mr. and Mrs. Lester Jones, of this city, to whom were born twin babies May 18th, one of whom died the day following. The second twin, who had been named Lester Norton Jones, died this morning, June 5, 1919, at the home of his grandmother, Mrs. A. K. Crawford, of 301 North Cedar Street. The grief of the parents is shared by Rev. and Mrs. C. R. Norton, parents of Mrs. Jones. Funeral services, which will be private, will be held Friday morning at Grand View Cemetery at 10 o'clock, with the Jewel City Undertaking Company in charge.

NATURE TALK BY DR. EDWARDS

Members of the Cerritos Parent-Teacher Association and pupils of the school immensely enjoyed the talk made at the Wednesday afternoon meeting by Dr. Edwards, head of the nature study department of the Los Angeles schools. It was a preliminary lecture calculated to awaken interest in a more intimate knowledge of natural phenomena, and was artfully presented in the story of a young man reared in the mountains of California who goes to war and becomes an officer. His orderly is an Indian "Eagle Feather." In the course of that war experience the officer discovers that the greatest thing in life that he has found is the devotion of that Indian orderly, who, like himself, has a close acquaintance with nature. A great many nature facts were woven into the narrative. He referred to the fore-feet of animals as their hands and referred to their faces as he would to the faces of humans.

INTERMEDIATES WIN BALL GAME

Wednesday afternoon a game which was quite spirited during the first innings, but a little slow at the last, was played by the High Ball Team of Intermediate with a pick-up team of "scrubs" of Glendale High, who went down in defeat before the Intermediates with a score of 13 to 21. Tommy Morgan pitched for the Intermediates during most of the game and home runs were made by Frederick Easley, Bartell Monsello and Nelson McCan. Dale Wood, of the second High School team, pitched for the "Scrubs" team for about four innings and challenged the Intermediates to play the second team some time next week. His challenge will have to be ratified by Mr. Hayhurst, but the Intermediates would like a chance to try their mettle against the High School players.

SPECIAL SESSION TO BE DEMANDED

SENATE'S PASSAGE OF SUFFRAGE AMENDMENT ENCOURAGES MRS. CARRIE CHAPMAN CATT AND OTHERS

(Special Service to Glendale Evening News)

New York, June 5.—Mrs. Carrie Chapman Catt, president of the National Women's Suffrage Association, declared today that the battle cry of suffragists now will be "Special sessions for immediate ratification," as a result of the Senate's passage of the national suffrage amendment. The majority of states do not have regular legislative sessions until one year from November. Special sessions will be necessary if women are to be enfranchised for the 1920 presidential election.

EXPLOSION KILLS MANY

ELECTRIC WIRE FALLS ON POWDER IN DELAWARE-HUDSON COAL MINE—85 KNOWN DEAD

(Special Service to Glendale Evening News)

Wilesbarre, Penn.—Eighty-five men were killed and many injured in an explosion in the Baltimore tunnel of the Delaware-Hudson coal mine this morning. At 11 o'clock mine officials announced a death list of eighty-five. Many others are in hospitals severely hurt, and it is feared they will die. There is a possibility the death list will reach one hundred.

It was one of the worst disasters in the history of the anthracite region. An electric wire falling across a carload of black powder in the tunnel caused the explosion. A train of sixteen cars, carrying two hundred men, was entering the tunnel at the time. Many were blown to atoms. The morgues are full, and hundreds of women and children are rushing from one morgue to another, attempting to identify the dead.

TO ANSWER GERMANS SOON

ALLIES WILL REPLY TO COUNTER PROPOSALS BEFORE JUNE 12—TURKS TO BE SUMMONED TO PARIS

(Special Service to Glendale Evening News)

Paris, June 5.—It was authoritatively learned today that the Allies will hand to the Germans a reply to their counter proposals before June 12.

The "Big Four," it is unofficially reported, have decided to call Turkish delegates to Paris soon. It is understood the Turks will not be recognized as anything more than witnesses to their treaty, and will not be given opportunity to discuss its provisions.

The United States merely plays an advisory part in the Turkish negotiations, as it never declared war on that country.

Paderewski this morning presented his views on the Silesia question to the "Big Four," also his version of continued hostilities between the Poles and the Ukranians. He gave assurances that hostilities will soon cease.

MAY INVOLVE ENTIRE UNITED STATES

PRESIDENT KONENKAMP OF TELEGRAPHERS SAYS ATLANTA STRIKE MAY HAVE WIDE RAMIFICATIONS

(Special Service to Glendale Evening News)

Washington, June 5.—President Konenkamp of the National Telegraphers' Union declared today that unless the strike of telephone and telegraph operators in Atlanta is settled soon, "the strike will involve the entire United States and Canada." He said: "Telegraphers and electrical workers in every section of the country are demanding that I sanction the strike they have voted. It will be impossible to keep them at work much longer. I will announce the date of a general strike within seventy-two hours."

SEATTLE JURY ACQUITS JAMES BRUCE

(Special Service to Glendale Evening News)

Seattle, Wash., June 5.—A jury here acquitted James Bruce, first to be tried of twenty-seven radicals who were arrested here following the February general strike. He was charged with criminal anarchy.

CHARGES OF BORAH AND LODGE TOLD TO WILSON

(Special Service to Glendale Evening News)

Washington, June 5.—Administration officials today declared the President had been informed of the charges that Borah and Lodge made in the Senate that the full text of the peace treaty is in the hands of an international banking concern of New York.

A. F. OF L. TO OUST BOLSHEVISTS AND ANARCHISTS

(Special Service to Glendale Evening News)

Washington, June 5.—Secretary Frank Morrison of the American Federation of Labor declared that the federation convention at Atlantic City June 9 will consider measures to eliminate anarchist and Bolshevist elements from the federation. He declared local unions will be urged to take strict measures to prevent such strikes as the Seattle general strike, and declared: "Organized labor stands by the right to strike, but will insist that its strikes be orderly."

WINNIPEG STRIKE TO END WITHIN 24 HOURS

Winnipeg, June 5.—It is authoritatively declared here that the general strike will be settled within twenty-four hours, "with honor to both sides."

ON THE RHINE

WILL RICHARDSON WRITES HIS PLATOON WON TRIP TO WEISBADEN

Letters received from Will Richardson, who is with the "Watch on the Rhine," written May 10, 11 and 12, indicate that life is growing rather monotonous for the boys of the occupation army, although they take daily rides about the former kaiser's grounds and palace at Coblenz and shelter their steeds in the royal stables.

He says: "Yesterday we had a competitive drill with the other M. P. outfits in Coblenz (32 men make a platoon) and out of 1,500 M. P.'s our company got first place in everything. That means a trip up to Weisbaden, in the French territory, one of the finest places in Europe. I am still riding about every day, one day on duty the next to do as I please. This morning I was over swimming in the pool, but I hope it gets warm so that I can go in the Rhine, as I hope to swim across it before I leave here. A few more months of army slum and then I think the Third Army will leave. We will be the last to go home. Some little German children gave me a bouquet of beautiful wild flowers yesterday as they were coming home from the hills. The weather is fine and I think the next few months on the Rhine will go quickly."

Omar Burt Richardson, who resumed his work at Yale after being discharged from army service, writes his mother that his final examinations are on and he will soon be graduated. There will be about ten days of commencement exercises and reunions of classes of which they make a great deal at Yale. Many of the older graduates come back from all over the country. He says his college work is more enjoyable now than ever before and he is feeling fine.

ANNUAL LUNCHEON

LITERARY SECTION OF TUESDAY AFTERNOON CLUB CLOSES YEAR WITH FUNCTION

The Literary Section of the Tuesday Afternoon Club enjoyed its annual luncheon at the home of Mrs. H. E. Bartlett Tuesday, June 3d.

Although it was very warm outside, the house was so delightfully cool it was a pleasure just to be there.

At 1:30 twenty-five members and guests sat down to beautifully appointed tables. The color scheme was pink and white and the beautiful Burbank rose was used for the tables and throughout the house.

After a delicious course luncheon an extra dessert was served in the reading of verses on the place cards, each of which bore a large letter, these letters when properly assembled forming the words "Literary Section of the Tuesday Afternoon Club." Each member of the section told a funny story and Mrs. Adams, who was the last one called upon, offered a toast to the outgoing curator, Mrs. Bartlett, and to Mrs. C. E. Hutchinson, the incoming curator.

Mrs. Hutchinson in a few well-chosen words voiced the sentiments of members in presenting to Mrs. Bartlett a bunch of roses and a Dickens Year Book as a small token of appreciation, to which Mrs. Bartlett responded. The company then adjourned to the living room where a program consisting of vocal solos by Mrs. Frank Arnold, a reading by Mrs. E. H. Willisford, and humorous selections by Miss Nellie Rowe was given and much enjoyed.

ANNUAL FEDERATION PICNIC

The annual picnic of the Glendale Federation of P.-T. A. will be held Monday, June 9th, on the grounds of the John Robert White home, 347 North Orange, from 11 to 5. Luncheon at 12. Members should bring sandwiches and cake, and each one a spoon, fork and cup. The Federation will serve salad and coffee. The new officers will be installed early in the day. An enjoyable time is promised all.

PREPARE COPY LEGIBLY

On account of cutting out one of the office phones, the Evening News must request churches, clubs and all organizations to furnish all announcements in writing. Your cooperation will be greatly appreciated.

WEATHER FORECAST—Fair except cloudy or foggy tonight and in the early morning near the coast.

SCHOOL LAND SALE

J. C. SHERER QUESTIONS PROPRIETY OF SELLING EIGHTH STREET SITE

City Clerk John C. Sherer of 717 South Verdugo Road expressed today his views in regard to the proposition to be considered this evening at a meeting called by the Grammar School Board of Trustees at the Intermediate School to consider the sale of school property on Eighth Street which has not been improved and apply the proceeds to the enlargement of the grounds of the Broadway School, which have been cut down by the opening and widening of Broadway and Sycamore Canyon Road, and the additional proposition of either rebuilding the present school structure or moving and remodeling it. He said:

"The site for a school in the Southeastern portion of the city was voted upon in connection with bonds for other purposes including additional property for the Colorado Street School. These properties were all bought at the same time and the supposition is that in order to secure the votes of the people for all of the propositions, it was considered desirable to distribute the benefits of the bond issue over the district as nearly as practicable. Therefore the Eighth Street investment was made for the purpose of satisfying the people of that section and securing their votes for the general bond issue. It seems unfair under these circumstances that the question of the sale of the property should ever be considered unless by the approval of the people of that section. It is highly improbable that the property will bring more than two-thirds the price paid for it."

WAR TALK BY ROGER BAKER

Roger Baker, with the wife he married while at Camp Lewis, is now a guest in the home of his parents, Mr. and Mrs. Louis Baker, of South Brand Boulevard. He had most interesting and strenuous service overseas in the Third Motor Corps, 319th Ammunition Train. It meant much traveling and gave him a chance to visit most of the important cities in the war zone. He saw service in the Argonne and in the Verdun Sector and has brought home a fine collection of souvenirs gathered in France, Belgium and Germany. These will be used by him to illustrate a talk which he will give next Tuesday night at the Central Methodist Church, under the auspices of the Baraca Class, of which he is a member and it is reasonably certain that the church will be filled with the people who will be anxious to hear him.

Following his talk there will be a short musical program which will include a mixed quartette, some instrumental numbers and vocal solos by Dr. Joseph Marple. Ice cream and cake will be served in the social hall afterwards.

THE OCCIDENTAL COLLEGE GLEE CLUB TONIGHT

The attraction at the Palace Grand Theatre tonight will be the Occidental College Glee Club, and they will no doubt be greeted with a large audience. This is the premier college organization of the southwest and is well known in this section for their excellent programs rendered. The evening entertainment consists of songs, readings and character sketches.

The affair is being given under the auspices of the Young Men's Bible Class of the First M. E. Church and they invite you to be present.

COMING HOME

MISS JEANNETTE M'LENNON EXPECTED SOON — PRESTONS LOOK FOR NEW HOME

Mrs. T. W. Preston of 601 South Adams is eagerly looking forward to the return of her daughter, Miss Jeannette McLennon, who has been taking a special teacher's course in physical training at a school in Chicago from which she will be graduated June 13th. She will leave the next day for California and a little later will take up work as an instructor in the Y. W. C. A. in Los Angeles, which will enable her to live at home. Mr. and Mrs. Preston recently sold their property on Adams Street, though they are still occupying it and they are now trying to decide on the location of the new house they are planning to build somewhere in Glendale. While much attached to their present home, the grounds are larger than they want to have the care of.

GLENDALE, CALIFORNIA, THURSDAY, JUNE 5, 1919

INTOXICATING PATENT MEDICINES MUST GO

A physician in North Carolina sends to the Journal of American Medical Association an advertisement of a "tonic," from which it may be learned in twenty-four point black face capitals that the "tonic" contains "no alcohol." Says this paper:

"One gathers from the less prominently featured parts of the advertisement that the preparation does, however, contain port wine! This, in a way, prepares one for the newspaper item which the same correspondent sent in forty-eight hours later, detailing the conviction of a Charlotte, N. C., druggist of selling this non-alcoholic "tonic" to young men, who, oddly enough, after partaking of it, became drunk and disorderly. Counsel for the druggist maintained that if the tonic were taken according to directions the medicine would not produce intoxication. But, by an unfortunate faux pas, the young men failed to follow directions.

"Thus far the story is commonplace. The unusual feature in the case is the judge's charge to the jury. He instructed these twelve good men and true to decide whether or not a 'patent medicine,' which when taken in liberal quantities will produce intoxication, is an intoxicating liquor. The jury decided that such a patent medicine' is an intoxicating liquor! Should this common sense and rather obvious finding of the jury be held by the courts over the country generally, the large business that purveyors of alcolohic 'patent medicines' are expecting to develop after July 1, 1919, will fail to materialize."—Literary Digest.

RURAL MAIL DELIVERY AND GOOD ROADS

The United States government has already appropriated vast sums for post-roads in the rural districts to extend and better the rural mail service. Only those who have lived in the country can appreciate the tremendous importance of the rural delivery of mail. The amount of business done by it is very large annually, and every aid to the highway system means an addition to the efficiency of the postal service.

The institution of the post office, together with the comparatively recent innovation of rural mail routes, is one of the greatest blessings agricultural districts have. Only the farmer, the fruit-grower, the dairyman, poultryman, the vegetable raiser, the producer of honey, the livestock dealer and those engaged in kindred pursuits know the full value of rural delivery. The proposed bond issue on July 1, next, will, when carried—and it is going to carry—add enormously to the value of the system in Southern California.

The communication between the small towns and the farming districts, between the cities and the smaller towns, the facilities added to commercial transactions generally, and the effect which a good rural postal system has upon the various ramifications of life and business in the country is very extensive indeed. Good roads are the basic foundation of its success. Not only good roads over a portion of the country, but good roads everywhere. Good roads without any unbuilt stretches between to delay or hamper the delivery of mail. Good roads so that rural postmen can handle the mail quickly and safely and, finally, good roads so that orders transmitted by mail, either from country to town, or from the town to the country, may be handled as cheaply and quickly as possible.

The encouragement given to the rural postal system by the United States has been supplemented and added to impressively by the action of many States of the Union. The co-operation of the different States and the United States government is gradually building up a rural postal system which commands the admiration of all the other countries on the globe. Southern California highways have an additional advantage in rural mail delivery in being posted from end to end with the guiding sign-posts of the Automobile Club of Southern California. Letters and newspapers enable men doing business in the country to keep in closest touch with market conditions everywhere.

They are thus enabled to dispose of their produce at better figures than in the days when communication between them and the markets was nearly an impossibility. So, too, the merchants in the smaller country towns are enabled, by reason of their getting news from the papers of market prices more quickly, to take advantage of any decline in prices and staple commodities. In this way, they can replenish their stocks and sell them to the farmers at a cheaper rate than if they were in a position of uncertainty as to the prices of goods.

FIVE HUNDRED SEAMEN NEEDED

No able-bodied American between 18 and 35 years of age need be jobless, according to Henry Avila, supervisor of the United States Shipping Board's sea training program on the Pacific coast. Avila declared today that thousands of men are needed at once to man new ships in the great American merchant marine.

California is expected to furnish merchant ships with 500 sea recruits during the month of June. Unless that number come forward without delay, the operation of new cargo carriers will be seriously handicapped. A vigorous campaign for men is to be undertaken without delay.

Men who volunteer for sea service will be assigned to the training ship Iris and given six weeks' instruction in their new duties. The Iris trains recruits as seamen, firemen and stewards. The most acute present need is for seamen.

On graduation from the Iris the embryonic seamen, firemen and stewards are assigned to merchant ships at the high wages now prevailing in the merchant marine. During the training period the men receive $30 a month.

Avila declares the Shipping Board promises rapid promotion to the man who applies himself. The demand for deck and engineer officers is correspondingly as great as the need for seamen, and the ambitious mariner is given all possible chance to win a license within three years.

Avila says: "America's opportunities for commercial expansion were never as bright as they are at present. We have the ships. Now we must have the men. Those who volunteer for the deep water service are fulfilling a patriotic obligation."

Men who want to engage in the remunerative sea service and see the ports of the world are asked to apply immediately at the drug stores in their communities officially designated as enrolling stations, or at Room 323, 369 Pine Street, San Francisco.

"The true source of genuine happiness is accomplishing something worth while."—Van Amburgh.

Yosemite Calls the Motorist

LA CANADA

The property on Hilliard Avenue belonging to E. Schmidt has been leased. A temporary house has been erected for the new tenants.

Property owned by Mr. Dudley on Burr Avenue was recently sold to a Mr. Scott, who has come from the East and whose family has not yet arrived. He is having the house renovated before they come.

A fine, young orange grove is being planted on the Hilliard Avenue property, recently bought by Mr. Hillman. It is a five-acre tract.

The church supper given by the Ladies' Aid on May 28th proved such a success that the organization plans to hold another near the end of this month. About eighty were present and a substantial sum was realized.

The Ladies' Aid and the Missionary Societies combined in an all-day meeting Wednesday, June 4th, and spent a most enjoyable day. There is much work to be done and the ladies feel after the enforced vacations of the winter there will be both pleasure and profit in continuing the meetings during the summer.

The Thursday Club will meet at the home of Mrs. Wilber Searight June 12th, at 2:30 o'clock. The annual election of officers will be held and will be followed by a program.

Commencement exercises of the La Canada Grammar School are being held this Friday evening at the school house. The following will receive diplomas: Mabel Marx, Paul Van Degrift, Mary Leoni, Annie Leoni, Arthur Famularo, Honore Griffin, Emily Earl, Edwin Earl and Violet Hall. Miss Green has arranged the following commencement program:

A Merry Life, Upper Classes.
Class History, Honore Griffin.
Class Prophecy, Emily Earl.
Class Song, written by Mary Leoni.
Class Will, written by Edwin Earl, given by Violet Hall.
Address, Mr. Evans.
Presentation by class, Mabel Marx.
Presentation of Diplomas, Mrs. J. T. Penfield.

The more some men talk the more trouble they pile up for themselves.

If you lack initiative and enterprise, you are minus a spark plug.

Notions are of little use unless translated into motions.

No man has computed China's riches. There is enough coal in the one province of Shansi to last the entire world for some hundreds of years. China has also great iron mines. The copper mines of Szechwan and Yunnan are very rich and may make China the greatest copper producing nation in the world. She is now producing a large amount of antimony. There are possibilities of gold and silver in North China and in the mountains of Eastern Tibet.
not be any such severe limitation as was enforced in some industries Their land is constantly enriched and irrigated, and after 5,000 years the Chinese farms still average from two to four crops a year.—World Outlook.

ST. MARK'S CHOIR

Regular choir practice will be held this evening (Thursday) at 8 p. m. at the home of Captain D. Ripley Jackson. Following the practice there will be a business meeting to arrange for the concert that is to be given under the auspices of the choir. All members are requested to attend. The Junior Choir will meet Friday afternoon at 4 o'clock in the Sunday School room.

DOING THINGS

"There are thousands to tell you 't can't be done,'
There are thousands to prophesy failure,
There are thousands to point out one by one
The dangers that wait to assail you.
But you just buckle in, with a bit of a grin,
Then take off your coat and go to it—
Just start in to sing as you tackle the thing
That couldn't be done, and you'll do it-"

"Don't think all others shifting sand
While you are solid rock,
And don't forget, for heaven's sake,
That any fool can knock."

Advertise it, or advertise for it in the Evening News.

Personals

Leon J. Robinson and wife went up to Big Bear Lake Sunday to spend a week or ten days.

Messrs. Upjohn and E. E. Knepper, deputy county superintendents from the office of Mark Keppel, are in Glendale today visiting the grammar schools.

Mr. and Mrs. Eustace B. Moore and family, of South Maryland Avenue, motored to Hermosa Beach Sunday afternoon and had a picnic dinner on the sand.

Prof. E. E. Harwood motored to Fullerton Sunday, where he spent a pleasant evening with his soldier brother-in-law, who has just returned from France.

Harry Horn, who formerly worked in the grocery store for his father, H. J. Horn, 527 South Brand Boulevard, is now in Arizona, working on a big electrical job.

Mrs. Irene McReynolds and Mrs. Charles Hutchinson attended the Lyric Club Concert Friday night in Los Angeles. It was a fine program especially the numbers by the eight lady carolers.

Mr. and Mrs. L. T. Fischer of 1251 South Maryland Avenue were host and hostess on Wednesday to quite a company of Los Angeles guests whom they entertained at dinner and for the evening.

Miss Irmy Wooldridge, who is a pupil of Miss Isabelle Isgrig, will give a song recital in the Presbyterian Church this (Thursday) evening. She will be assisted by Richard Berry, who will give pipe organ numbers.

E. J. Jackson, who took the body of his wife to Bardolph, Ill., for burial, week before last, had a safe journey and the funeral services were held as planned on Sunday, May 25. Mr. Jackson is expected home about the 20th.

Friends of Mr. and Mrs. Charles Wallace Kimberly are in receipt of a telegram from Mrs. Kimberly, announcing that her husband underwent an operation at the Mayo Hospital in Rochester, Minn., Wednesday morning, and is doing finely.

W. Baldwin has sold his residence and store property at San Fernando Road and Colorado Street and Roy Jackson sold his oil station next to it to the same party. The Jacksons are now on their way to Chicago in an auto, to spend the summer.

Mr. and Mrs. E. L. Wilson, of 1217 South Maryland Avenue, have welcomed to their home a little girl who was born last night, June 4, 1919. She has been named Alice Rebecca. She is their second child, her little brother being nearly four years of age.

Miss Maybell Douglass is entertaining a group of friends who enjoy music this evening at her apartment in the Davenport Block. The guest list will include Mr. and Mrs. E. B. Moore, Mrs. Annie Curtis, Dr. and Mrs. P. O. Lucas, Mr. and Mrs. W. M. Crawford.

A fishing party, which caught some fish although their luck was not sensational, went from Glendale Thursday night to Big Bear and returned Sunday evening. Strong winds stirred the waters of the lake so the fish did not bite very well, they say. The group included: Mr. and Mrs. Harry Moore, Miss Crawford, "Duke" Claussenius, Vernon Carr, Jesse Smith, F. E. Gilman.

Mrs. E. D. Goode, who, with her husband, was one of the pioneers of Glendale, but who has been away from here for several years, has returned and is now temporarily with her son, Leo Goode, on W. Elk Ave. With her daughter, Mrs. Hilton Robinson, who will spend the summer with her, she will take an apartment. Mrs. Good was vice-president of the Tuesday Club during Mrs. Mattison B. Jones' administration, and was also prominent in the P. E. O. She has many friends in Glendale who are glad to welcome her. Mrs. Robinson's home is in Nebraska, where her husband has a fine position in a college.

It is expected that the program for the picnic festival, to be given Saturday evening at the home of Mrs. Ella Richardson on Central Avenue and Riverdale Drive, will probably include contributions by Prof. Kirchoffer, leader of the Community Sing, who has promised to come if he is in California, and Mrs. Carrie Jacobs Bond, the famous song writer who, like Prof. Kirchoffer, resides in Hollywood. Mrs. Richardson also announces that the High School orchestra, assisted by solo violinists, will play during the supper hour which will begin at 6 o'clock, when it is hoped a large number will be present with their lunches to enjoy the hot coffee which will be served, and the fine music to be furnished by the young people for their entertainment.

UNITY CHAPTER

Unity Chapter, No. 116, will hold its regular convocation June 5th, at 5:30 p. m., which will be Past High Priest night. Dinner at 6:30, after which the Past High Priests will exemplify the work in the Royal Arch Degree. Do not miss it.

CLEM L. V. MOORE,
High Priest.

KAY-LAC BUTTERMILK

E. E. East, wife and son of 1024 E. Harvard start this afternoon on an auto trip to Anderson, Ind., the old home. They go via the Santa Fe trail and will stop at Grand Canyon for two days and at other points along the route. They have a camping outfit so will not stop at hotels. Mr. East has recently returned from army service with a medical corps and has been working with the National Highway Commission. He does not expect to return until about Christmas.

ANNUAL JUNE RECITAL

Mrs. Roy W. Masters invites the public to attend her annual June recital, to be given at Masonic Temple, Friday, June 6th, at 8 p. m. The following pupils will play: Thelma Gadden, Claudia True, Gertrude Phillips, of Los Angeles; Raymond Wolfe, Harold Thompson, Edda Miles, George Herald, Doris Miles, of Glendale.

Mrs. Masters will be assisted by Miss Eva Thede, contralto.

FUNERAL OF ROSA BALLARD

Mrs. Rosa Ballard, wife of Arnold M. Ballard, died in Los Angeles Tuesday, June 3, 1919, after an illness which had lasted about two years. She was formerly a resident of the Tropico section. Funeral services were held this morning at the Little Church of the Flowers, Forest Lawn, at 10 o'clock, in charge of the Pulliam Company. The deceased leaves an infant son 27 months' old. Mr. Ballard is employed by the Brock Jewelry Company of Los Angeles.

The XVI girls will meet with Miss May Cornwell, 135 N. Kenwood, on Saturday afternoon.

No man can be happy unless he tries to divide it with others.

When some people talk they don't believe a word they hear.

LIBRARY NOTES

Charles Cushing, librarian of the Branch Library at Brand and Los Feliz Road, is taking a two months' leave of absence and during that time his place will be taken in the day hours by Miss Pardon of the main library staff, while Miss Harriet Myers will take charge evenings. Mr. Cushing goes for a brief library course and for a vacation.

To meet the demands at the main library under Mrs. Danford, three students have been taken on who will give service in exchange for library training. These are Misses Dorothy Sherman, Muriel Theobald and Helen Jenkins. The two last named plan to make library work their vocation. This arrangement will make it possible to bridge over the absence of Mr. Cushing.

Mrs. Danford is getting ready to inaugurate the story hour which will be started soon after the first of the year. If the attendance justifies, it will be divided into a younger and an older group.

The Library Board met in regular session Tuesday night and arrangements were made for Mrs. Danford to attend the meeting of the State Library Association at Monterey next week. She is looking forward to the convention because, aside from the addresses, the round table discussions are of great value and afford an opportunity for an exchange of ideas. Mrs. Danford reported to the Board that the new books recently purchased for summer reading will be ready for circulation as soon as they can be catalogued and prepared for the shelves. An adjournment of the Board was taken to meet again in the near future to consider business matters connected with the closing of the fiscal year, including the preparation of a budget for the coming twelve months.

THE SENIOR PLAY

If the Senior play to be given at Union High on the 17th and 18th fulfills the promise of the rehearsals, it will be a very good performance. All who are taking part are doing good, intelligent work considerably above the average of amateurs, and Miss Terry, head of the dramatic department, who has trained and directed them, has reason to feel well satisfied with the showing they are making. The play, a bright little comedy entitled "The Rejuvenation of Aunt Mary," as its name suggests, depicts the effect upon an elderly aunt of association with a lively nephew and his chums, male and female.

Louise Butterfield is making a fine "Aunt Mary." Other members of the cast are:

Her Nephew Jack—Rhuark Dudley.

Burnett, Mitchell and Clover, Chums of Jack—Robert Carmack, Frank Baithis and Philip Wernette.

Stebbins, Aunt Mary's Lawyer—Gilbert Emery.

Joshua, Aunt Mary's Hired Man—James McClusky.

James, the Burnett Butler—Russell Tummell.

Bertha Burnett, Burnett's Sister, who poses as Aunt Mary's maid, Granice—Cecilia Lyons.

The Girl from Kalamazoo—Ivy Mills.

Lucinda, Aunt Mary's Property, Body and Soul—Mildred McKee.

Daisy Moss, the Villager—Ruth Shafford.

ELECTION AT UNION HIGH

The election at Glendale Union High School on Tuesday, to select officials for the student body for the coming year, resulted as follows:

President, Leland Wise.

Secretary of Order, Guy Bennett.

Secretary of Assemblies, Clifford Kenworthy.

Yell Leader, Clayton Card.

Secretary of Publications, Dan Campbell, who is also editor-in-chief of The Explosion.

Secretary of Debating, Paul Hutchinson.

Secretary of Finance, Gertrude Van Benthusen.

Secretary of State, Walter Howland.

Secretary of Athletics, Paul Jenkins.

The selection of Secretary of Boys and Secretary of Girls will take place at an assembly in the near future.

NOTES OF TROPICO PRESBYTERIAN CHURCH

There will be Childrens' Day exercises at the Tropico Presbyterian Church Sunday morning, June 8, beginning at 10:30 o'clock. They will take the place of the regular morning service.

In the evening Miss Rose Scott of Los Angeles will give a demonstration of a summer school of Bible study. It is the expectation such a school will be held in the Tropico Presbyterian Church in July.

The next regular all-day meeting of the Ladies' Aid Society of that church will be held on Thursday, June 12.

CLASS IN PARLIAMENTARY USAGE—Those desiring to join Mrs. P. S. McNutt's summer class in Parliamentary Usage will phone Mrs. E. H. Brown, Glendale 2231-R. 232t2

Attend the cooked food sale given for the benefit of the Holy Family Parish all day Saturday, June 7th, at Mellish Jewelry Store. 233t2

More Mileage Adjustment on Goodrich Tires

Fabrics-6,000 Miles Cords-8,000 Miles

TO automobile owners and drivers—to Goodrich Dealers—the B. F. Goodrich Rubber Company herewith declares a *more-mileage adjustment* on Goodrich Tires—6,000 miles for SAFETY TREADS, and 8,000 miles for SILVERTOWN CORDS.

Fix these new Goodrich Adjustment figures firmly in your mind—6,000 miles for SAFETY TREADS—8,000 miles for SILVERTOWNS—*instead of the 3,500 and 5,000 miles respectively heretofore in force.*

This new adjustment stands back of all Goodrich Tires, including Tires already purchased in the hands of user or dealer.

Goodrich Tires in actual usage are today unfolding such matchless mileage, regularly in excess of adjustment basis, that Goodrich knows it has the strongest, most durable tires the rubber industry has produced.

The Goodrich adjustment mileage is increased because Goodrich knows the mileage in its tires, and it wants to give every motorist a share in their economy.

Go to a Goodrich Dealer, and buy a Goodrich Tire, sure that with fair and square usage a Safety Tread will render you at least 6,000 miles; and a Silvertown Cord at least 8,000.

Buy Goodrich Tires from a Dealer

A BIG DAY

Spend tomorrow (Friday) at Verdugo Woodlands, two miles from Glendale. Verdugo Woodlands is the place you hear so much about, where so many are buying homesites. Spanish luncheon served. Address given, an auto will call and take you out, all free of charge. Under no obligation. Make reservation early, or motor out yourself. Phone Glendale 2002-J. 233t1*

TUJUNGA

The Haines Canyon Water Company has filed application for an increase in rates to cover deficits caused by increased costs of materials and operating expenses. They claim they are getting no return upon capital invested nor sufficient earnings to cover depreciation. In explaining the cause for the application an officer of the company made the following statement: "We have been trying to give a good water service here on these highlands at an unusually low rate with a view of rapidly advancing the progress of the community. Water problems never amount to anything in a district with a water shed like possessed here, providing we attract the population. With plenty of water users, big improvements can be made in the system without any noticeable burden. As it now stands we cannot make the desired and necessary improvements at the existing rates. That the rates here have been so low as to endanger the proper progress of the community is shown by the comparison with rates existing in other districts. For instance, Inglewood, which is in the lowlands where water is abundant with about one-third the lifts we have here and the rate is 75 cents for the first 300 cubic feet with an average of about eight cents per hundred cubic feet for all above that amount. Our rate here has been about $1.50 for the first thousand cubic feet and about two and a half cents per hundred cubic feet for additional amounts with an initial charge payable annually in advance of about 30 cents per month on each acre. We shall always supply this water to this district on a basis as low as it can be accomplished without neglecting the proper extensions and improvements."

E. S. Smith, wife and friends came over from Zelhah on Sunday for a picnic in Manzanita Park.

Miss Hannah McKee, who is staying in Pasadena for a time, called on friends in Tujunga, Saturday.

If the party who borrowed the hose from the place of Mrs. A. M. Holmes on Granby Street, will kindly return it to the cottage or to Dean & Co., it will be thankfully received.

Miss Gilbert has been asked to take the place of Mrs. Lang on the School Board during her illness.

Mr. and Mrs. Charles Warren and daughter were in Tujunga for a week end stay at their home on Sunset Blvd.

Mrs. Brown was called to Terra Vista, Sunday, because of the illness of a niece who resides there.

Mr. Bryant of Downey was a caller on Saturday.

Mrs. Leckie has a sister, Mrs. Bennett, and son, from San Francisco, visiting with her for a time.

John Steen and daughter, Mrs. Catt, of Long Beach, were in Tujunga on Saturday. Jack is still with the troops in Siberia.

Mrs. Leo Lang, who underwent an operation at the hospital in Los Angeles, is reported as improving, which her friends will be glad to know.

Mrs. Benj. Clark and Geo. C. Buck and wife were up from Long Beach this week for a few days.

The "Little Landers Store Association" held its yearly meeting on Tuesday evening. There was no quorum, but George Buck, treasurer, read a statement that there was $220 in the treasury and no outstanding bills. The voice of those present was to keep the store, under present circumstances.

Mrs. Darlington has returned from Redlands. Her mother passed away during her stay there.

A large consignment of eggs and broilers were sent in this week from Tujunga to Los Angeles by the various poultrymen in this vicinity.

We understand that Mr. Costello has purchased an auto for his own use and pleasure.

Mr. Rocky and Mr. Wright report the bees are laying in a fine lot of honey. Both have been extracting for the past two weeks.

Some men are busy taking out a small portion of the state highway between Sunset and Pine. For some reason there was not left room enough for expansion, and the pavement cracked badly, hence the necessity of repairing.

TO DELCO-EQUIPPED CAR OWNERS

We specialize in all branches of Delco work. Our service is at your disposal at prices 50 per cent lower than in Los Angeles.
BUICK AGENCY,

TO HELP SAVE GRAIN CROP

(By United Press)

WASHINGTON, June 5.—The Department of Agriculture has started a campaign against the careless threshermen. It wants only "clean straw ricks" left of the greatest grain crop the nation has ever known, according to a statement made public today. So the threshermen will be aided by the government to develop efficiency and avoid loss in separating the wheat from the chaff.

Records of the department reveal startling losses of grain "through unavoidable waste of the threshermen." Tests made in "just ordinary" crop years show that an average of 25,000,000 to 27,000,000 bushels is thus thrown away. What it will be this year, unless the waste is eliminated, the department believed would be worth much more than the campaign of education would cost the government.

In Minnesota, where the department made comprehensive tests covering 6500 threshing machines last year, it was found that more than 25 per cent. of machines wasted an average of 15 bushels of grain a day each. This loss, according to the figures, was largely through machines being out of repair or through lack of adjustment. Some of the Minnesota threshers wasted as much as 50 bushels per day of the threshing season. The daily average for the 6500 machines according to the records was: Wheat, 4.69 bushels and oats, 9.1 bushels per machine.

SANTA BARBARA FINDS MEAN MAN

On the ground that "a man who will steal his pal's wooden leg is too mean to put in jail with other prisoners," the chief of police at Santa Barbara yesterday "floated" John F. Neelan on south. Neelan was arrested for disturbing the peace. He indignantly denied any police record, but the fingerprint expert got Neelan's number and found the wooden leg theft charged against him at San Jose, where he served a sentence for the theft.

Neelan said no more when confronted with his picture and record.

HIGH PRICES FOR DRIED APRICOTS

Under date of May 19th, the Board of Directors of the California Prune & Apricot Growers, Inc., have sent to the growers of the state the following prices on dried apricots:

Sunsweet Quality

Choice	25c
Extra Choice	26c
Fancy	27c
Extra Fancy	29c
Fancy Moorparks	29c
Extra Fancy Moorparks	32c

Growers' Brand Quality

Choice	24½c
Extra Choice	25½c
Fancy	26½c

First Quality

Standards	19c
Slabs	21c

Other grades, such as whole fruit and off quality deliveries, will have to be taken care of on the basis of sale largely on sample.

"We have previously taken up in detail the disadvantage in loss of an export market which, previous to the season of 1917, consumed some 70% of our dried apricot production. The above prices certainly eliminate the necessity of commenting on the fact of world's markets once more available."—Burbank Review.

GREETINGS PEOPLE FROM THE STATE OF MAINE

The annual picnic reunion for all former residents of the grand old Pine Tree State will be held in Sycamore Grove, Los Angeles, all day, Saturday, June 14th, with basket dinners at noon. Hot coffee will be provided for all, but each one must bring cup, spoon and dinner.

County registers will be open all day so you may meet friends. There will be a brief, snappy program opening about two o'clock. The main purpose will be to have a good time with those from the old home state. Tell all the Maine people you know to come. Come early, stay late and have a good time together.

NO MONEY IN IT

A customer came into a print-shop and asked the price of 1,000 business cards. After looking the price up in the price list he was told they would cost him just $5. He looked at the printer in amazement.

"You get more for cards," he said, "than I used to when I was in the printing business."

"Were you in the printing business at one time," the printer asked.

"I was about ten years ago in Kansas, and we sold those kind of cards for $1.25 a thousand," the customer replied.

"Why did you quit the printing business?"

"There was no money in it," was the answer.—The Business Printer.

AMERICAN FLAG IN SOUTHERN SEAS

By LAWRENCE HAAS
(United Press Staff Correspondent)

RIO DE JANEIRO. (By Mail).—Americans here and in other Brazilian ports are awaiting the return of the "good old days" of the supremacy of the American merchant marine with a feeling of confidence in the restoration of their commercial standing, mixed with a spirit of patriotism.

They are hoping to see in the near future the Stars and Stripes floating from at least forty to fifty per cent. of the ships in the harbors of Rio, Santos and Pernambuco, a condition that has not existed for more than a half century, since the decline of America's merchant fleet, following the Civil War, and the introduction shortly afterward of the steel vessels by Great Britain.

The Brazilians and other South Americans were closer to the United States than to any other country in the middle and fore part of the last century, through contact with Yankee skippers of Yankee trading ships but the neglect of America's merchant marine, which dwindled after the "Sixties" to practically nothing, coupled with the growing enterprise of the Old World in the direction of the southern continent, distracted South America's interest from their powerful sister republic in the North, and gave Europe a long lead in South America.

Only the world war succeeded in accomplishing any real results, and from the efforts of the United States Shipping Board, the United States Chamber of Commerce, the Pan-American Union, and other organizations and individuals, the outlook has again taken on a roseate hue.

In 1911 only three American vessels touched at this port, in comparison with 287 ships of American registry which entered Rio in 1858. From 1860 on there was a steady decline. Since 1911, however, there was a slight though steady increase, although during the two-year period of 1912-1913 only sixteen American vessels entered Rio harbor. In 1913 the first vessel of the United States and Brazil Steamship Line entered Rio. In 1914, twenty-six American vessels entered the port, but during 1915, for the first time in many years, the American ship began to come into its own again, when 103 American vessels made Rio.

The number of American vessels to make Rio in 1916 rose to 130. America's entry in the war naturally took most of the vessels out of the South American trade, and in 1917, 117 American vessels made entry, this declining to seventy-one ships in 1918.

Sailing vessels again came into their own temporarily, due to the necessity for using every steamship in the European war service. Of the seventy-one American vessels which entered Rio in 1918, only seventeen were steamships.

Since the United States Shipping Board has already made provision for considerable tonnage to South America, 1919 promises to be the banner year since 1860 in the number of American vessels entering here. Between January 1 and March 7, 1919, twenty-seven vessels flying the American flag entered the port of Rio.

The registered tonnage of the vessels which entered Rio in 1918 totalled 2,737,281 tons. The ships, by nationalities, follow:

Nationality	Number of vessels
English	448
French	93
Italian	64
Dutch	6
Argentine	15
Norwegian	157
Spanish	11
Swedish	24
Uruguayan	1
Belgian	1
Danish	24
Russian	2
United States	64
Greek	11
Japanese	16
Chilean	1
Portuguese	6
Brazilian	184
Total	1128

LA CANADA

Mr. and Mrs. Albert Van der Grift, who are the happy parents of a 12½-pound boy, born last week, have not yet announced the name of the young fellow, who is their third child. He and his mother are doing well.

The petition addressed to the School Trustees, asking for the establishment of a kindergarten in connection with La Canada Schools, has secured the required number of signatures and has been turned over to the Board. Great enthusiasm is being shown in regard to it. Though La Canada is a small community for a little folks' school of that kind, its promoters are very hopeful that it will go through.

Mr. Life Insurance Man:
I want a live wire of good standing to represent us in this community. Will give exceptional contract to right man.

STANDARDIZATION APPLIED TO ALL INDUSTRIES

It is said that anyone intending to fit out a bathroom or a lavatory can take his choice of 4,000 varieties of plumbing fixtures.

The leading men of the National Brass Manufacturers' Association have agreed that the public would still have a sufficient range of selection if the varieties were reduced to 1,000. The manufacturers propose to regulate their output accordingly, as soon as an authoritative vote can be taken.

The public may be expected to acquiesce with the utmost cheerfulness. It will be not only less confusing to have fewer shapes, sizes and styles to choose from, but the simplification ought to result in price reductions. There has never been any sound economic justification for the riot of variations in plumbing, any more than for those in stoves, furniture and other commodities. They have arisen from a system of competition unrestrained even by considerations of advantage for the industry concerned.

The war, with its emphasis on economy of man-power, transportation, etc., showed the folly of varying an article in a hundred trivial ways when a dozen variations would probably answer all legitimate demands just as well and save time, labor and material all along the line. Standardization is the order of the day. There need not se any such severe limitation as was enforced in some industries during the war, but experts recognize that the principle should be applied in a reasonable way to all industries. Instead of chaotic differentiation in manufactures, there must be simplification, as the best means of holding down prices and extending markets. And competition must be based on quality and serviceability rather than individual freakishness.—San Bernardino Sun.

ROBINSON BROS. TRANSFER AND FIRE-PROOF STORAGE CO.
We do crating, packing, shipping and storing. Trunks and baggage hauled to all points. All kinds of moving work.
PHONES: Sunset 428; Night 1178-J 304-306 S. Brand Boulevard, Glendale
